SUMMARY

Frontend Developer with hands-on experience building modern web applications using React, Next.js, TypeScript, Tailwind CSS, and JavaScript. Currently participating in the UniLab Acceleration Program, where I am developing six production-level projects in collaboration with a professional team, while also mentoring a frontend development student. Growing into a Fullstack developer.

WORK EXPERIENCE

Frontend Developer

UniLab React Acceleration Program

04/2026 – Present | Tbilisi, Georgia

- Developing six production-level web applications using React, Next.js, TypeScript and Tailwind
- Active participant in team meetings, aligning with backend developers and designers to coordinate tasks and feature development
- Built reusable UI components following a mobile-first approach and ensuring pixel-perfect match with Figma designs
- Proficient in server-state management and asynchronous data fetching using TanStack Query and REST APIs.
- Collaborated effectively within a development team using Git and GitHub, utilizing Pull Requests for code integration and participating in collaborative code reviews

Frontend Mentor

03/2026 – Present | Tbilisi, Georgia

- Helping the student build real-world projects and improve problem-solving skills
- Explaining core web development concepts including HTML, CSS, JavaScript, React, Git, and GitHub.
- Reviewing code, providing constructive feedback, and guiding best practices in frontend development.

Frontend Developer

Freelance Project

11/2025 – 03/2026 | Kyiv, Ukraine

- Developed a 10+ page responsive e-commerce website for a client using HTML5, CSS3, and JavaScript.
- Built reusable and responsive UI components, ensuring compatibility across desktop, tablet, and mobile devices.
- Optimized page layouts, navigation, and visual consistency following modern frontend development practices
- Collaborated closely with the backend developer, gaining hands-on exposure to backend workflows, API integration, and application architecture through guided implementation and technical discussions

Technical Support & System Administration Intern

Georgian Technical University

04/2025 – 08/2025 | Tbilisi, Georgia

- Monitored and maintained the university's live examination web portal, verifying test content, answer configurations, and scoring integrity
- Audited digital exam results, extracted performance metrics, and managed structured records in Microsoft Excel
- Web System Administration, QA & Data Auditing, MS Excel (Data Structuring & Reporting), Content & Exam Management Systems

EDUCATION

Georgian Technical University

Informatics and Control Systems

09/2023 – Present | Tbilisi, Georgia

GPA: 3.83 / 4.0

Interbusiness Academy

Frontend Developer

11/2025 – 07/2026 | Tbilisi, Georgia

SKILLS

HTML5 | CSS3 | JavaScript (ES6+) |
TypeScript | React | Next.js |
Tailwind CSS | GSAP | SASS | jQuery |
Git | GitHub | VS Code | BitBucket |
Figma | npm | Vite | RESTful APIs |
Postman | TanStack Query | Zustand |
AutoCad | Adobe Photoshop |
Adobe Illustrator

PERSONAL PROJECTS

Cocktail GSAP Website [↗](#)

React • GSAP • Tailwind CSS

Food website [↗](#)

HTML5 • CSS3 • JavaScript (ES6+) • REST APIs

Shop.co — E-Commerce Landing Page [↗](#)

HTML5 • CSS3 • JavaScript (ES6+) • Swiper.js

Photosnap [↗](#)

React • Tailwind CSS

CONFERENCES & ACADEMIC ACTIVITIES

Drone Swarm Choreography System

Python • OpenCV • SciPy • NumPy • Hungarian Algorithm • RK4

Developed an autonomous 3D UAV swarm control pipeline using OpenCV and scipy.optimize to segment, predict, and trace dynamic dancer trajectories in real time using 200 simulated drones with zero collisions. Awarded Top-3 honors

V International Scientific and Practical Conference (London)

Modeling of Volumetric Geometrical Objects. Expanded knowledge of mathematical modeling and scientific research methodologies (Autocad)

V International Scientific and Practical Conference (Boston)

Creating a Catalogue of Mechanisms Formed on the Basis of Geometrical Transition-Inversion Using Graphic Editors (Autocad)

AI Summer Camp

Participated in hands-on workshops focused on AI and collaborative software development. Worked in teams to solve practical challenges while improving problem-solving and communication skills.

Public Speaking Winter Youth Camp

Built leadership, public speaking, and communication skills through interactive workshops to deliver confident presentations
